

Roadmap Proposal for Researchers/Scientists Green Activities Implementation

This roadmap offers researchers to implement green activities in their work, focusing on sustainability, impact, and community support.

GRACE CONSULT®

Potential

1

Determine your current potentials to achieve the green activities savings/reward that you wish to have. You may not have a PhD, but that does not stop every one to invent things.

GRACE CONSULT®

Impact

2

Determine how it shall help people lives, and whether they are willing to purchase it

GRACE CONSULT®

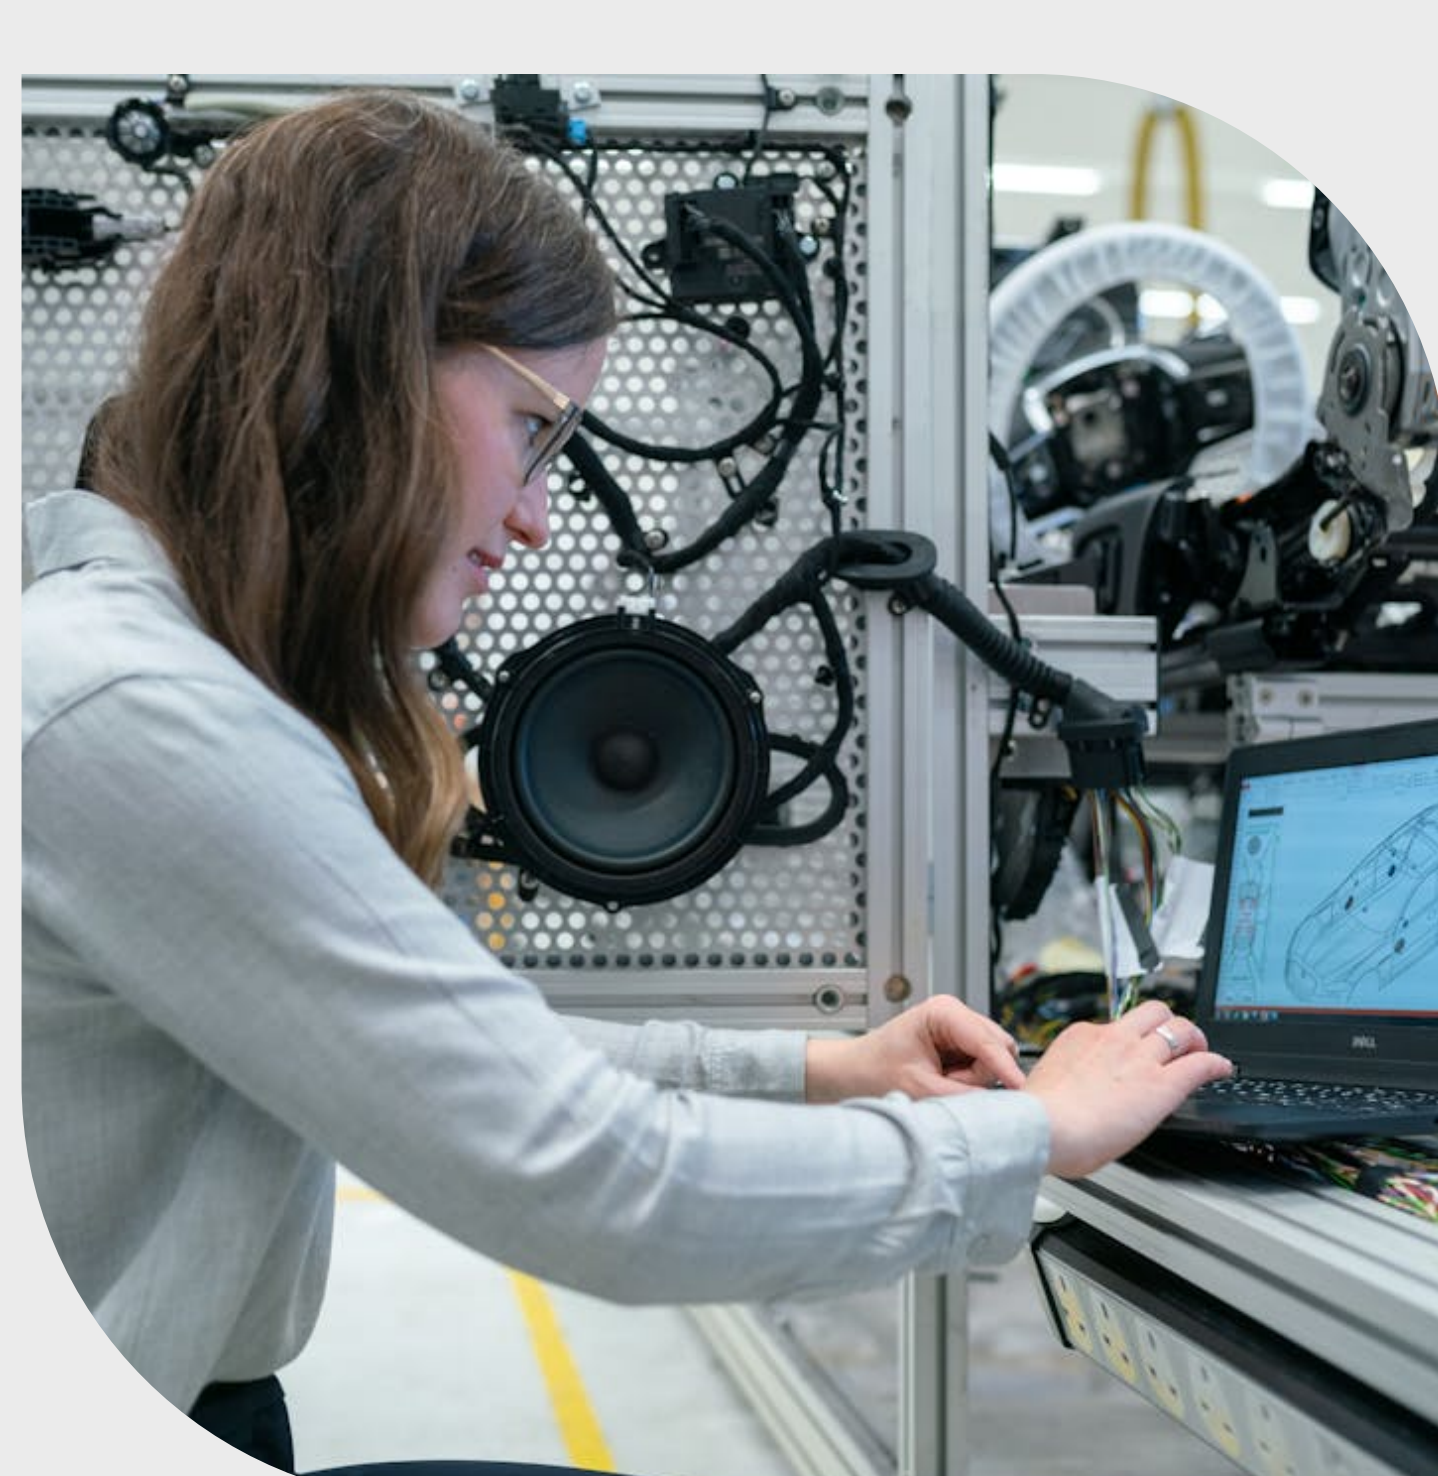

Risks

3

Determine the long term impact/ risks on your inventions/researches, whether it is worth the risks in the long run and short run.

GRACE CONSULT®

Prototype

4

After calculating point 1-3; you may start the research with a prototype scale and don't explode things around (do not do illegal things) by creating a research timeline and steps.

GRACE CONSULT®

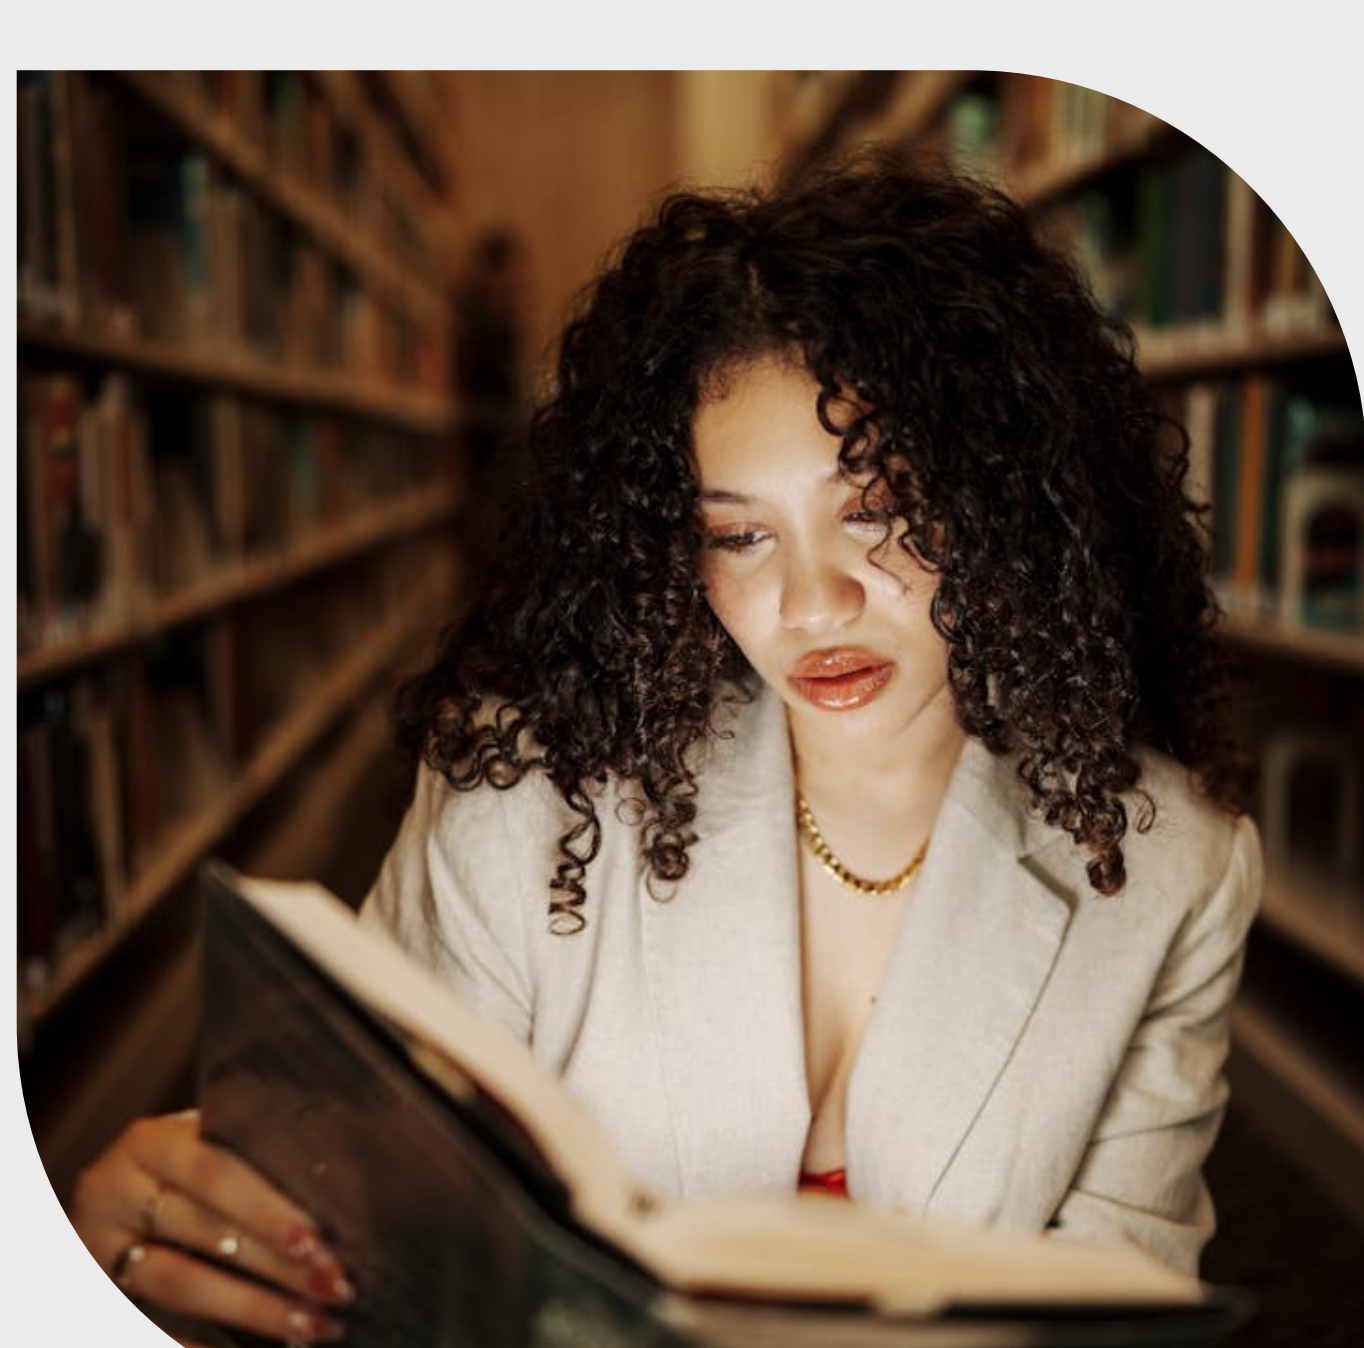

Community

5

If you are stuck with what you have, reach Grace Consult Communities for assistance (monetary or other resources). Be sure you have presented point 1-3 truthfully and responsibly. All investment made towards you shall be under your liability (not Community/ Grace Consult).

GRACE CONSULT®

Timeline

6

Informing the research timeline progress to your investor/community to gain more investors / insight. We aim to have it at the soonest if the Community has approved it.

GRACE CONSULT®

Intellectual Property

7

When it's done, please register your invention/research result as an IP or Patent through Grace Consult services. We ask for your permission to contribute back to Grace Consult and the Community at least 10% out of the total royalties you shall receive (no royalties, no contribution yet). And another 10% to your Grace Consult Scientists/Research Fund (your savings).

GRACE CONSULT®

Invest

8

Decide to invest in other research/inventions using your Grace Consult Scientists/Research Fund. So you can have a more robust solution/collaboration on future wish you'd like to invent/research on.

GRACE CONSULT®

Collaborate

9

Collaborate to other fields of scientists/researchers/entrepreneur/ individuals. This help your dream to be supported and implemented also along the way.

GRACE CONSULT®

Enjoy

10

Don't forget to smile and be goofy a bit; it's your dream we're building.

GRACE CONSULT®

Research for Us

This roadmap outlines how scientists can determine the future after gaining approval from Communities. We aim to have scientists research to be more adventurous as we shall build a facilities toward that goal.

Join the Community, and build your path for continuous result.
